

VI. UNIVERSITY POLICIES

Information Access Policy

Employees, contract employees, students, or other agents who as either data providers or data users intentionally and without proper authorization (1) access or disclose confidential University information, or (2) modify or destroy University information are in direct violation of the Emory University Information Access Policy. Such violations may lead to disciplinary action by the University up to and including dismissal from the University. Under certain circumstances, such violations may give rise to civil and/or criminal liability. This policy applies to information kept on mainframes, servers, or personal workstations.

Ethical Use of Electronic Systems

Passwords

Users should not disclose their passwords to anyone else, nor should they use someone else's password. Users are responsible for all activity in their account. Users should not attempt to circumvent passwords, access codes, or information protection schemes or uncover security loopholes or attempt to break authentication procedures or encryption protocols.

Anonymous Activity

Users may not impersonate other individuals in electronic communication or knowingly use an invalid electronic ID such as an invalid electronic mail return address.

Illegal Activity

Users should not use electronic systems in the course of any illegal activity. Users should be aware of computer activities that are illegal under Georgia law.

Communication Tampering

It is unethical and may be criminal to attempt to monitor other people's communications without their permission. ResNet services and wiring may not be extended or retransmitted.

Copying and Copyrights

For information to which the individual or the University does not hold the copyright, written permission from the copyright holder is required prior to duplication. Academic dishonesty or plagiarism in a student assignment is unethical. Suspected occurrences are referred to the Honor Council of the student's school or college.

Harassment

Electronic system usage or information that is perceived by its recipient as sexual or discriminatory harassment as defined by University policy may be considered a violation. The display of offensive material in any publicly

VI. UNIVERSITY POLICIES

accessible area is likely to violate University harassment policy. Public display includes publicly accessible computer screens and printers.

Wasting Resources

It is unethical to deliberately perform any act which will impair the operation of any electronic system or deny access by legitimate users to any electronic system. This includes the willful wasting of resources and sending of “junk mail” and “mail bombs.” Users must abide by resource guidelines and take action to be in compliance when asked to do so.

- A. It is unethical to use electronic systems for:
 - 1. solicitation not related to official University business, or
 - 2. commercial gain or placing a third party in a position of commercial advantage.
- B. General University policy prohibits non-University use of University facilities.

EMORY TRANSPORTATION AND PARKING SERVICES RULES AND REGULATIONS

Effective August 1, 2006

Parking rules and regulations are subject to change. For updates to the parking rules and regulations, go to www.epcs.emory.edu/park/regulation06.htm.

Introduction

Emory University has initiated significant planning in recent years to ensure that its future contributions in research, scholarship, and education will have maximum impact in a world facing new challenges every day. A Campus Master Plan, outlining a rational growth process for the long term physical development of the campus, was developed to address and embrace wide-ranging strategies for growing an environmentally sustainable community. In support of this, a Strategic Plan for 2005-2010 was developed as a means to arrive at this vision for the future. Emory’s long-standing commitment to the ideals of “environmental stewardship” encourages us to “create a sustainable campus that conserves natural resources, restores environmental quality and protects biodiversity.” The planned changes in the physical environment over the next ten years will transform the Emory University/Healthcare complex into a model of an effective and efficient sustainable community.

The guiding principles of the Campus Master Plan focus on developing a pedestrian campus in which inner campus streets become walkways, bike
