

Crime Log Information

You must understand this information to understand the Crime Log.

1. The Crime Log includes criminal incidents and alleged criminal incidents which are reported to the Department of Safety and Security (DoSS) for the defined geographic locations, not just the categories of crimes which are counted in the Annual Security Report (ASR). Therefore, Crime Log numbers will include more entries than ASR statistics.
2. Not all case numbers appear in the Crime Log. DoSS assigns a case number for all reportable activities, both criminal and non-criminal. The Crime Log only contains the criminal activities. Omitting the non-criminal case numbers creates gaps, so the case numbers in the Crime Log are not always sequential.
3. Crimes are ordered by date of *report*, not date of *occurrence*. Crimes are often reported days after they happen, and sometimes even years after they happen. Therefore, DoSS enters items in the Crime Log in the order they are reported.
4. Sometimes reports are incomplete. For instance, sometimes a Campus Security Authority (CSA) is required by the Clery Act to report the existence of a crime when the survivor of the crime does not want to make a report. For such incomplete reports, some of the information ordinarily given in the Crime Log may not be known.
5. Federal law permits an institution to withhold any information if any of the following conditions apply:
 - a. The disclosure is prohibited by law.
 - b. If disclosure would jeopardize the confidentiality of the victim.
 - c. If disclosure would jeopardize an ongoing criminal investigation or the safety of an individual.
 - d. If disclosure would cause a suspect to flee or evade detection.
 - e. If disclosure would result in the destruction of evidence.
