University Email Policy.

Email is an official William Paterson University form of communication. The University reserves the right to send official communications to students by email with the full expectation that students will receive email, read these emails, and respond accordingly in a timely fashion.

Students are expected to check their WPU email on a frequent and consistent basis in order to stay current with University related communications. They must ensure that there is sufficient space in their email accounts to allow for email to be delivered. Students have the responsibility for recognizing that certain communications may be time-critical. Emails being returned due to "mailbox full" or "error forwarding" messages are not acceptable excuses for missing official University communications via email.

Students who choose to have their email forwarded to a private (unofficial) email address outside the University network address do so at their own risk. The University is not responsible for any difficulties

that may occur in the proper or timely transmission or access of email forwarded to any unofficial email address, and any such problems will not absolve students of their responsibility to know and comply with the content of official communications sent to students' official William Paterson University email addresses.

Emergency Notification Systems

Rave is the University's Emergency Notification System (WP Alert). It also includes the Guardian App which allows students to communicate directly to University Police in an emergency situation.

WP Alert is utilized for notifications of campus situations (ie. weather emergencies, power outages, critical incidences, road closures etc.) that pertain to University operations. Resident students are required to be in the WP Alert system.

The Guardian App allows students to communicate directly with University Police or their Guardians regarding their safety and/or situations they are witness to on campus.

The Rave Guardian Mobile App is available free of charge at the Google Play or Apple Store. A two-step verification process is required to enroll.

The Guardian App includes the following:

Safety Timer

- Ability to set a "Safety Timer" session. Once activated, "guardians" selected to be in the users virtual safety network can monitor the users status updates and location. Guardians are automatically notified at assigned check-in times. If the timer expires or the user initiates a panic call, Guardian automatically notifies trusted safety resources.

Tips & Multi-Media Messaging

- Allows campus members to send text and photo content directly to Campus Police officials via secure cloud infrastructure. Campus safety officials can provide instruction or follow up to learn more. Tips can be sent anonymously or not.

Emergency Call Button

- Through the mobile device, a user can send an alert to Campus Police with one-click, automatically providing student information and GPS location.

Safety Profiles for Faster Emergency Response

- Student-created safety profiles contain details such as residence and medical condition information that are automatically presented to campus

- safety officials during an emergency call for faster, more precise response.
- Student safety profiles are available during emergencies, on and off campus, to Campus Police and Smart911-enabled 9-1-1 centers nationwide.

Housing Operations

Room Assignments

Students are assigned a space in either a room or apartment. With the exception of small number of assigned triples and singles, the majority of the rooms in all of residence halls are designed for double occupancy. Each apartment is a two-bedroom apartment that houses four residents.

Students may not allow residents or nonresidents to occupy a room/space to which they are not assigned. In addition, switching room assignments without administrative approval or subletting in the residence facilities is strictly prohibited. Each room is furnished by the institution and furnishings may not be disassembled or removed from the room by the resident.

Room Selection

The Department of Residence Life establishes room selection and assignment procedures for the fall semester early in the preceding spring semester. All current residents are informed of this procedure to allow them sufficient time to prepare for room selection for the following academic year. Resubmission of the Residence Life Housing Application and non-refundable housing deposit is required to participate in the room selection process. Students are responsible for adhering to all established room selection timelines and procedures.

Roommates

Students may request friends as roommates on their housing application; if requests are mutual and submitted by the required date established by Residence Life, they may be honored. Late submissions for housing may have requests placed on hold. Many students do not request their roommates prior to the beginning of the academic year, and adjustments may need to be made during the semester with the assistance of the Residence Life Staff.

The keys to having a successful roommate relationship are **cooperation, communication, compromise** and **mutual respect**. At

the beginning of each academic year, or when a room change occurs, each room is required to complete a **living in community agreement**. This process assists individuals by providing the opportunity to communicate expectations, concerns, and needs for a comfortable living environment. Through the assistance of the RA, residents are encouraged to discuss their needs and feelings as related to their room/suite/apartment living arrangement. When conflicts arise, students are expected work together with the assistance of the residence life staff to resolve roommate issues in a positive and productive manner. The living in community documents will be used by the residence life staff should a conflict arise.

Room Changes

Students are encouraged to work out roommate conflicts among themselves or with the help of their resident assistant and/or resident director. The living in community documents are the tools used to facilitate the mediation process. The Department of Residence Life works with students to develop a relationship based on cooperation, communication, compromise and respect. Should the process not benefit the roommate pairing, then the resident director will intervene to assist and possibly arrange for a room change, if spaces are open. Room changes are not made on the basis of race, ethnicity, religion, or sexual orientation.

A student's room assignment is for a specific room space. Room assignments may not be changed without discussion with, and approval from a residence life professional staff member. Room changes are not made into fully open rooms or suites, in accordance with the Residence Life Room Consolidation procedures. The University reserves the right to deviate from the room change practices when required to do so by applicable law or University policy.

Room Consolidation

The Department of Residence Life reserves the right to assign a student occupant, assign roommates, consolidate vacancies, and change occupants as necessary during the period of occupancy. The Department of Residence Life will notify any/all students affected in a timely manner.

Room Inspections

The overall condition of student rooms is monitored throughout the year. Building upgrades are strategic and cyclical for replacement and repairs. Each room is inspected by Residence Life staff prior to the start of the fall semester, and repairs are requested and noted as needed.

All residents have the opportunity to review the condition of the room as they take occupancy, and submit in writing on the student assessment form any concerns. The form is due to the hall office within three days of moving into a residence room. The pre-inspection by the residence life staff and the student's written review are maintained by the hall office.

After a student formally checks out of the room, the staff will complete an inspection of the room and compare the condition of the room upon vacating the space to the condition of the room at the beginning of occupancy. This comparison will indicate any differences that may be billed to the student or if the damage is accepted as normal wear. Students should make every effort to return the room to the condition which they found it at check-in to avoid damage billing.

Residents are responsible for the cleaning and upkeep of their room and/or apartment, especially their bathroom and kitchen areas, during the academic year. Many residents find it helpful to rotate this responsibility with the students living in the suite/apartment in order to evenly distribute this responsibility.

Health and Safety Inspections

Periodically during each semester, Residence Life staff members make announced room/apartment checks to verify room/bathroom conditions and cleanliness. If a room is found to be in an unacceptable condition, the students residing in the room/apartment will be notified so that they may make the needed changes. Should a room be in an extreme condition of uncleanness or if damages are found, a damage assessment fee may be imposed or other accountability measures taken. If an individual does not take responsibility for the condition of the room, disciplinary action will be extended to all residents of that room.

Rooms are also checked prior to each break period for safety purposes. During room inspections, prohibited items will be documented and confiscated. Confiscated items will be returned at the beginning of break periods or when the student checks out of the residence hall.

Checkout Process

Students leaving one room assignment for another, or moving out of the residence halls, must check out properly by cleaning their area and completing all necessary paperwork, and returning any keys issued. Any student who does not follow through with the established checkout procedures is subject to a \$50 improper or late checkout fine. Upon checkout time, any items left behind are discarded.

At the end of each semester, a structured checkout procedure is established through the hall offices. Students receive an official checkout notice with specific instructions on how to check out of their respective hall prior to the end of each semester.

Express Checkout

All residents participate in Express Checkout, which is convenient for residents. Please follow the instructions below to ensure that your checkout is done correctly.

- Pick up an Express Checkout form located at your building's front desk or in your area office.
- Complete all the information on the front of the form. Do not leave any section blank or you could be charged an improper checkout fee.
- Remove the top copy from the form, this will be your receipt, so make sure you hold onto it.
- Place all keys (mailbox/room/apt) in the pocket on the form and seal it. Please do not place ID cards in the envelope.
- Drop your Express Checkout form in the box located near your building's hall office or front desk.
- Final inspection and assessment of damage beyond usual "wear and tear" will be performed by Residence Life after all buildings close for the semester.

Damages

Damages that are clearly beyond normal wear and tear are billed to the individual(s) responsible. Also, extraordinary cleaning charges due to the abuse of the facilities or excess trash left in a room are charged to the residents.

Public area damages or property losses that are preventable (broken windows and light fixtures, graffiti, stolen furniture, etc.) and are not assignable to individuals are billed in equal amounts to the group having responsibility for that public area. It is a community responsibility of all residents to notify the hall administrator or RA of individuals who damage community areas or property.

Damage fees for individual and public area damage are assessed against the student's damage deposit upon checkout. The student is notified of the amount assessed, generally within a few weeks of the semester ending. If damages assessed are greater than the damage deposit, a charge will be applied to the student's account in the amount of the difference between the damage deposit and the damage fees assessed. If damages assessed are less than the damage deposit, a credit will be applied to the student's account. Please note that if there is any unpaid balance on the student's account, the credit will be applied to that balance.

Meal Plans

Students living in the Century Hall, High Mountain East and West, Hillside Hall, Skyline Hall and White Hall are required to be on a meal plan. Further information regarding the meal plan can be obtained through Hospitality Services located on the first floor of the Student Center, [973.720.2671](tel:973.720.2671).

Housing is available during Summer Session for those students registered for classes at William Paterson University. A housing contract for summer housing can be completed online via the Residence Life website. Resident students are not required to submit a housing deposit with their summer housing contract.

Students should check their email on a daily basis, as they will be notified when a package arrives for them. Mail items/packages that can fit into student mailboxes will be placed directly into the student's mailbox.

Important information from professors, Residence Life, or other departments, such as the Registrar and Bursar, may be placed in student mailboxes, so students are encouraged to check their mailboxes

frequently. All students are held accountable for any information placed in their mailboxes.

The Department of Residence Life does not forward mail during break periods, after graduation or when the residential contract is terminated – all mail will be returned to the sender. Students are strongly encouraged to keep use their permanent address off campus for all personal mail and/or update their mailing address in a timely manner to avoid delay in receiving personal mail.

Disposing of Garbage

Please be sure not to dispose of flammable items in **any** disposal or garbage receptacle. Residents who do not dispose of their garbage properly may face disciplinary action.

Apartments: It is the responsibility of each resident to dispose of their garbage at regular intervals. Garbage is to be placed in the dumpster located between Pioneer and Heritage Halls. Excessive trash left in hallways, lounges or stairwells is billed to students residing in those areas.

Hillside Hall, Century Hall, and High Mountain East and West: Garbage should be placed in trash bags and deposited in the trash rooms.

Skyline Hall: Garbage should be contained in trash bags, and placed in the proper garbage disposal chute located on each floor.

White Hall: It is the responsibility of each resident to dispose of their garbage at regular intervals. Garbage is to be placed in the dumpster located outside the building. Excessive trash left in hallways and lounges, or stairwells is billed to residents residing in those areas as common damage area.

Recycling

William Paterson University must comply with the laws of the State of New Jersey pertaining to recycling. The state has set goals and has mandated a reduction of solid waste going to landfills. In order to accomplish this, recycling of all recyclable materials must be increased so that the solid waste that is currently being transported to landfills can be reduced. William Paterson has responded to this requirement by implementing an aggressive recycling program. The University believes that it can make a difference by helping reduce solid waste by increasing recyclable materials. Thus, it will reduce the strain on the environment. It makes sense to recycle. It can also help reduce the University's disposal costs. These savings can then be used towards alternative expenditures.

Recycling is a multi-level program that not only changes the way we dispose of our solid waste but also changes the way we think. It is hard to change old habits, so we now have to make a conscious effort to separate recyclable items before we dispose of them. As a result, training is essential for everybody, from the user to the person who picks up the trash.

A unique feature of the WPUNJ recycling program is that you are allowed to mix recycling materials in any recycling container on campus. WPUNJ adopted a single-stream recycling system in 2015. Single-stream recycling is a system in which all recyclable materials — fiber (newspaper, cardboard, mixed paper, catalogs, magazines and junk mail) and containers (glass, steel, aluminum and plastic) — are placed, unsorted, in one recycling bin.

Recycling is an excellent way to reuse materials to avoid filling landfills and wastefully using valuable natural resources. We hope the campus community joins in our effort to take things even a step further by minimizing — or altogether avoiding — the use of materials in the first place. There are many other ways to prevent the use of natural resources and the only limit is your imagination.

All of the recycling material from WPUNJ is picked up by Waste Management and brought to a local facility for sorting. Each residence hall is set up with containers that are to be used for recycling. There is a regular schedule for collecting the material. If you have any questions or suggestions, please see your resident assistant or resident director.

Study/Lounge Areas

There are many areas on campus where students may study, including the Library and University Commons. In the residence halls, students may choose to study in their rooms or in the student lounges located throughout the residence halls. For the residents' comfort, the study areas are furnished so that these areas are conducive to study.

Removing items from these areas causes an inconvenience for the residents in the halls. **As a result, students who take any and all lounge fixtures including furniture, bulletin boards, electronics, garbage cans, etc. and place them in their rooms are subject to disciplinary action.**

Keys/Lost Keys/ID Cards

Upon check-in, students are issued a room and mailbox key. In addition, each student is assigned a William Paterson University identification (ID) card through the Hospitality Services Office. Students should keep these on hand at all times. **Residents must present their William Paterson**

University ID to residence hall security upon entering the residence halls.

The replacement fee for a lost or stolen key varies by building. Please see your hall office staff for key replacement prices; for a William Paterson ID replacement costs are determined by Hospitality Services; and for a mailbox key, \$5.

Resident students caught passing their key or ID card for any purpose to another person are subject to disciplinary action and a fine of \$50.00. In addition, any person who presents an ID that is not their own or uses a key that was not issued to them is subject to disciplinary action and will be held responsible for any criminal acts committed.

Students are strongly encouraged to report keys and IDs that are lost or stolen. Unauthorized duplication, lending, borrowing, or possession of William Paterson keys is prohibited. Violators may be removed from the residence halls.

Lock-Out/Loan-Out Key Policy

In the event that a resident does not have their key, it is expected that they make an effort to contact a roommate or suitemate to gain entrance into the room.

During office hours, residents may temporarily obtain a loan-out key in order to gain entrance into their room. Residents who do not return loan-out keys within the return timeline determined by the Residence Life Office staff (usually 24 to 48 hours) may incur a \$25 lock-change fee.

Outside of hall office hours, a resident may contact an RA on duty to gain entrance to his/her room. It is an expectation that residents carry keys at all times. Persons who are continually locked out of their rooms are subject to go through the student conduct process.

Maintenance & Student Work Order Process

The Physical Plant Operations Office on campus has repair staff and custodians assigned to assist with maintaining each residential area. Students having a problem should report it to their hall office and fill out a maintenance work request. In the event of an emergency, please contact the hall office or the RA on duty. Students do not need to be present for the maintenance staff to work on repairs in their rooms. The Physical Plant Operations staff can only take written or verbal work orders from authorized members of the Residence Life staff. All students are encouraged to visit their hall office to submit any work orders to the office staff or the RA on duty. Students may also submit work orders online via the link on the building webpage for the hall in

which they reside, but please note that this may cause some delay. Students should click on the current students tab of the Residence Life webpage, select the building in which they reside, and then use the quick link, highlighted in orange on the right side of the page to log in and submit their work order.

Emergencies that pose an immediate threat to personal safety or major damage to buildings, equipment, or property, should be reported immediately to the hall office or the Residence Life Central Office. You do not have to process an online work order for any called-in emergency requests. Residence Life defines emergencies as unscheduled occurrences that imminently endanger life, health, or property, that include, but are not limited to, the following examples: over-flows, broken glass, power outages, etc.

Network Access

In order to receive network on your devices please head to <https://itwiki.wpunj.edu/index.php/Resnet> and follow the instructions for your device to get connected. If you have any issues connecting a device please follow the Report a Problem link to create a ticket.

**All students must abide by the University computing policies posted on the University webpages.*

Each vehicle must display a proper university parking permit which must be visibly affixed to the vehicle at all times while parked on campus. All students and employees must fill out a Parking Permit Request Form located on the university's home page, under the student or employee tab. The only exception to the parking permit requirement are visitors of the campus.

App, the university webpage and departmental social media to inform students that they are to move their cars from Lot 6 to Lot 5. This will enable our facilities department to properly clear Lot 6 so that resident students may return their cars to that lot. There will be a 24 grace period so that students can move their cars from Lot 5 back to Lot 6.

Residence Life Policies and Procedures

Rights and Responsibilities

It is the student's responsibility to know and adhere to the residence life policies and procedures and to abide by them. If violated, these rules and regulations carry with them a variety of sanctions. When students are found responsible, depending upon the violation's severity, appropriate accountability actions are taken. Individuals who choose to remain in a situation that violates Residence Life policy may also be held accountable for that violation.

Every attempt is made to handle student conduct matters in-house, as privately and as quickly as possible. However, if the severity of an offense warrants the response of other agencies, they are notified immediately.

Noncompliance with any University or Residence Life policy or procedure could result in disciplinary action, including, but not limited to, community sanction hours, fines, probation, eviction from the residence halls, or expulsion from the University.

As a residence hall community member you have the opportunity to document any concerns you have or observations in a communication report and submit it to your hall office. Please see the staff in your hall office for more information and for access to a communication report form.

Community Member Expectations

The goal of residential living is to support every student's academic success, thus each resident has rights and responsibilities. The Living in Community documents completed by roommates reinforces our expectations that roommates consider each other's needs and preferences in order to create a positive living space. The roommates of a specific room detail the expectations and actions for themselves which determines how they will interact in accordance with their rights and responsibilities, residence life policy, and the student code of conduct.

Primary Areas

Areas deemed most essential and important to the academic success of students.

- A living environment free from any type of harassment or intimidation. Any and all actions must demonstrate safety and respect and may not cause any type of fear, physical and/or emotional harm.
- Having the ability to read, sleep and study in your room, free from actions, as agreed upon by the occupants, that cause unreasonable interference.
- Maintaining a clean living environment as agreed upon by the occupants of the room.
- Respecting all personal belongings.
- Being able to freely access one's room or suite when the residence halls are open to students.
- Appropriate and civil communication regarding any concerns or grievances.

Secondary Areas

Areas that should be protected, but not infringe upon the reasonable implementation of primary areas.

- Personal privacy. All residents should have freedom from interference with their personal activities, and be able to maintain privacy for other than academic reasons.
- Host guests. All residents should have the opportunity to maintain personal contacts and friendships with other persons to fulfill their social needs.
- Guests are to respect the above-stated expectations and other residents at all times.

Reporting a Problem

Students should report any problems to their RA or hall office, who then notify the hall administrator or other appropriate personnel. Through the use of a communication report, students may document concerns or policy violations and submit it to the hall office for processing. Please see the staff in your hall office for more information and for access to a communication report form.

Resolving Conflict through Mediation

If you have a roommate issue that seems irresolvable, the Residence Life Staff is trained and available to assist with mediating the conflict. Successful mediation results when individuals are willing to clearly state the issues and/or problems, as well as listen to other's perspectives regarding the situation. A mediation includes discussion and the development of a mutually agreeable compromise. Students are expected to adhere to the agreements made during the mediation.

Students who violate a mediation agreement may be subject to disciplinary action.

Emergencies

In an emergency, health-related or other-wise, students should try to locate their RA or the RA who is on duty. In all halls, duty schedules are posted at the security desk. The RA will contact the hall administrator on duty or the University Police, if necessary.

If a student believes that the situation is severe enough to warrant a direct call to University Police, they should, without delay, call 973.720.2301.

Fire Emergency Procedures

Students are responsible for familiarizing themselves with fire exits and escape routes. In the event of a fire alarm, do not use the elevator. Whenever a fire alarm sounds, day or night, the residence halls are to be evacuated immediately.

Upon discovering a fire:

- Activate the nearest pull station to sound the building alarm. If the alarm fails to work, shout "fire" several times.
- Telephone University Police at 973.720.2301, or contact a Residence Life staff member to report the fire details should include building, floor, area, and intensity.
- Evacuate the building immediately. Do not attempt to fight a fire. Fire extinguishers are to be used only to clear an exit way.

Evacuation procedures:

- Feel the closed door of your room. If it feels hot, the hallway is filled with deadly gases. **DO NOT OPEN THE DOOR**, but go to your window and wait for rescue. If the door is cool, **CLOSE YOUR WINDOWS** before opening the door slowly.
- Do not stop to dress, but take a pair of shoes, a coat, and a blanket. Upon leaving the room, leave the lights on and the door **CLOSED**. Take your key with you.
- If you cannot leave the room:
 1. Open the windows if there is smoke; if there is no smoke, leave the windows closed to prevent outside smoke from being drawn into the room.
 2. Seal cracks around the door with damp towels if possible.
 3. If you are trapped, attract attention by hanging an object from the window — the brighter the color the better. If outside smoke is drawn in, close the window, leaving the object hanging.
 4. If smoke is severe, place a wet cloth over your nostrils, and **REMEMBER** to stay close to the ground. There is usually less

smoke on the floor.

When evacuating:

- Move in a single file along the wall upon which the exit is located.
- Follow the posted specific corridor instructions as to proper exit route and assembly point.
- Walk at a brisk pace, but **DO NOT RUN**.
- Do not reenter the building until instructed to do so by a University official.

Due to the serious nature of a fire emergency, noncompliance with evacuation procedures is subject to severe disciplinary action.

Do not test your smoke detector. The smoke detectors are routinely checked by trained University personnel.

If your smoke detector is sounding, contact the RA on duty or notify the hall office. Do not attempt to correct any problem yourself.

Students found responsible for tampering with, or removing, smoke detectors face disciplinary action, which may result in loss of housing privileges. In addition, students may be charged for the replacement of the detector. Students are not to tamper with the sprinkler systems in the residence halls. Please report all problems immediately to the hall office.

Wildlife Advisory Statement

Please be aware that due to the amount of “green space” on the campus and the proximity of the High Mountain Park Preserve, a variety of wildlife can be found on and near the William Paterson University Campus. Deer, geese, turkeys, groundhogs and, on rare occasions, bears and coyotes are some of the animals you may encounter as you make your way around the campus.

- Report any unusual behavior to Campus Police by calling 973.720.2300.

If you see a bear:

- Remain calm. Do not run from it.
- Make the bear aware of your presence by speaking in an assertive voice, singing, clapping your hands, or making other noises.
- Avoid direct eye contact; back up slowly.
- Make sure the bear has an escape route.
- If the bear does not leave, move to a secure area.
- Notify Campus Police by calling 973.720.2300.

If you see a coyote:

- Do not turn your back on a coyote or run away from a coyote.
- If coyotes are present, make sure they know they're not welcome. Make loud noises, blast a canned air siren/horn, throw rocks, etc.
- Notify Campus Police by calling 973.720.2300.

Entering or exiting a residence hall facility via a window or emergency exit, when no emergency exists, is prohibited. Placing items on outside ledges or hanging items from windows is also prohibited.

Screens are not to be removed from windows. The removal of screens from windows will result in a student conduct violation and a \$50 fine. Additional charges will be passed on to the student for replacement costs in the event that the screens are damaged. Tampering with and/or removing window blocks will result in disciplinary action.

Residents who are caught allowing persons to enter or exit the buildings through windows or emergency exits will be subject to disciplinary action and/or a \$50 fine. Such offenses could result in being removed from the residence halls.

The Student Conduct Process

The Office of Student Conduct and the Office of Residence Life work together to implement a disciplinary system based on due process for students. All policies and procedures written in both the Student Code of Conduct and the Residence Life Handbook apply to all residential students. Sanctions for violations are intended to be educational and not punitive, when possible.

Students accused of an alleged violation will have a hearing, based on the due process code outlined below. An assigned hearing officer will conduct the hearing to determine responsibility related to the alleged violation. Sanctions range from a written warning to loss of housing privileges.

Any violation of local, state, or federal law will be adjudicated through the Office of Student Conduct.

Building Restrictions/No Contact Orders

When students are involved in conflict-related incidents, they are subject to being temporarily restricted to their own residence hall or relocated to a new residence hall until the completion of the conduct process and final sanctions are determined. Communication restrictions, known as No Contact Orders, may also be issued to all students involved.

Clear and Present Danger

Please note that violations of state law and/or university policy that are considered to be a threat to the safety and security of the residential community may result in immediate removal from the residence halls or the university campus. Residents who are involved in these types of incidents will not be permitted to return to the residence hall for any reason unless accompanied by Campus Police until the outcome of the conduct process is determined.

Conduct Procedure

When charges are brought against a resident for violation of a policy, the following procedure becomes effective.

An **incident report** completed by a University staff member, outlining the alleged violation is received by a hearing officer. The assigned hearing officer then sends (via email) a **Conduct Notification Letter** along with a copy of the incident report to the resident being charged. This letter cites the date and time of the alleged violation, and informs the resident as to when and where the hearing is scheduled.

At this meeting, the resident is given the opportunity to dispute the charges. Witnesses and any supportive material should be presented at

this time. A sanction will be delivered via email to the student within a timely fashion.

Any questions regarding the student conduct process should be directed to the Office of Student Conduct or your resident director. Due process and disciplinary procedures are outlined below.

Due Process and Conduct Procedure

Due process in higher education disciplinary matters does not parallel the requirements of due process in a court of law. However, we ensure that the requirements of due process in all disciplinary actions are implemented.

The resident can expect:

- Written notification of charges delivered via William Paterson University email within a reasonable period of time after the violation.
- An opportunity to either have a formal conduct hearing based on the charges, or to waive the formal hearing and accept the sanction to be imposed.
- A conduct hearing to be held without the student being present in the event that the resident fails to attend a scheduled hearing (a hearing may be rescheduled within the designated time period as indicated on the notification letter).
- An opportunity to present information, witnesses, and their perception of the incident at the hearing. Sanctions range from a written warning to loss of housing privileges.
- Written notification of findings and sanctions or penalties imposed delivered via William Paterson University email within a reasonable period after the hearing.
- The student may bring an advisor to the hearing. (This advisor may not question witnesses — their sole purpose is to advise the charged student.)
- The opportunity for an appeal, if the sanctions qualify.

Appeal Process

The appeal process can only be implemented in cases where the sanction has resulted in eviction from the residence halls. The charged student has up to five business days from the date he or she was informed of the decision to file a written appeal to the associate vice president for campus life or other designated party

The grounds for appeal may only be for one or more of the following reasons:

- Severity of the sanction;
- Procedural error/violation of due process protections;
- New evidence that was not known to the officer at the time of the hearing.

Once an appeal has been filed, the associate vice president for campus life or their designee will review the decision and issue a written decision to the student within a reasonable amount of time.
