---

Hello Ms. Conza,

I am writing to ask you to please update your article, [University of Oklahoma diversity training requires students, faculty to agree with university-approved viewpoints](#), with the acknowledgment that a response was received on behalf of the University of Oklahoma and Dr. Hyppolite by email (see below) and by mail.

I am referencing following language: FIRE [wrote](#) to OU on Nov. 16, 2020, calling on the university to either make its diversity training optional or allow participants to select the answer choices that most closely reflect their beliefs. Nearly five months later, OU still has not responded to our letter.

Please let me know when this correction is made.

Thanks,  
Kesha Keith  
OU Director of Media Relations
