Note what we were told about discussing masks and Covid with students at my college today.

COVID Guidelines

- Be sure to read the Restart Plan and COVID Readiness
- We cannot have any written language (signs, syllabus) anywhere requesting/requiring/recommending (verb choice doesn't matter) masks
- We also cannot encourage folks to wear them in person. This is to comply with the governor's executive order
- Stick to the plan published of what sessions are online and on-site, no moving sessions online last minute.
- If sick and scheduled to teach onsite, use sick leave rather than moving class online.
