Subject: FW: DEI, Free Expression, and Events -- New College Resource

Dear UC Hastings community,

I hope you had an opportunity to attend and participate in the various events that we hosted with ACLU Staff Attorney Emerson Sykes on August 30-31. The purpose of these events was to give our community an opportunity to engage in meaningful conversations about racial justice and free expression and how we can work together towards achieving these important values despite the tensions that may exist. We've posted Emerson's Keynote Remarks on the [DEI, Free Expression, and Events MyHastings site](#), so if you weren't able to attend this event, please consider watching the recording. Additionally, thank you to those of you that provided comments and suggested edits to the draft event policy, many of which were incorporated into the finalized [UC Hastings Event Policy: Student Organization Support Protocol; Permissible Forms of Protest](#). We hope that this policy provides guidance and support to all community members as we navigate these difficult issues together.

Best,
Dean Hum
