**Subject:** Org. CHM. II lecture

Hi, Org. CHM I lecture classmates,

Do you want to take Org. Chm II lecture and Lab next semester? I went to St. Charles Community College yesterday and they offer both the lecture and lab for Org. Chm I and II (the tuition is about similar to here). I happen to meet a friend there. She told me that the instructor of the lecture and lab is prof. Bookstaver. He is a very nice and patient (also a native English speaker). Prof. Bookstaver has a very good reputation on the campus. These are exactly what I want. So, I decide to register prof. Bookstaver's lecture and lab of Org. CHM II. Is there any one who want to take prof. Bookstaver's classes? We can form a car pool. I have the course catalog of St. Charles Comm. Coll. They offer scholarship up to \$1000 that can be used for next semester. The registration starts from 10/29.

A friend told me that prof. Hauser is going to teach these classes and I confirmed with the dept. chair. I like Prof. Hauser (nice, patient, a very good reputation) and am going to take prof. Hauser's classes for Org. Chm I lecture and lab (I will withdraw these current course before 11/9). If there is time conflict, I may go to Flousses Volley Campuse. Prof. Friedman (dept. chair) teaches Org. Chm I lecture and lab. I talked with her and found she is also a very nice and patient person.

Have a good weekend.
